Re: Substitute Teaching

Dear Parents and Community Members,

With the start of our new school year on August 19, 2020, we are looking for substitutes. We understand that this year is going to be different in how school looks for some of you. However, we are still holding school and will need people willing to substitute. Every year we struggle to find people willing to come into each of our schools and help the teachers and students of the Oneida School District. We know that this year has the potential to be worse with how people feel about COVID-19. We are asking parents or anyone willing and interested to sign up for substitute teaching this year. It is a position that we need and one that is greatly appreciated. There are safety and health protocols for each of our schools so that all employees will be kept safe.

Please take the time to consider how you can help our students at our two elementary schools (Malad and Stone), our middle school, and our high school. Our students will need you this year. If you are interested in helping our students, please contact the District Office at 208-534-6080.
