

MALAD HIGH SCHOOL

Members of the School Board and Dr. Moore,

Foster Garrett has been a great employee from the get go. I cannot say enough about the time he spends and the vision he has for his program. His enthusiasm and zeal for his choir and band has energized the students as well. He has increased the numbers by 500 percent in both classes.

He has brought a great deal of enthusiasm in our pep band as well. I cannot count the number of people who have come up to me after a game and told me how much they loved our band. One of our proudest moments was when we played at West Side. He led both bands in the national anthem and then grouped the bands at half time and played "Sweet Caroline" together. It truly made the atmosphere less hostile and inclusive.

Early in the year we asked him to be a mentor for a few of our students who were members of his band and choir. These students struggle to stay eligible. He has spent extra time tracking them down, communicating with parents, and encouraging them. These students have been able to stay eligible and involved in the pep band and concerts. These positive experiences have given our students a sense of purpose and belonging that have helped in all aspects of our culture and school.

He has been relentless in his pursuit of grants and involving the community. I am grateful for Foster's dedication, and vision for his programs and our school. I am also grateful for his honesty and integrity. He deserves this recognition and award as employee of the month.

Sincerely,

Michael Corbett
Principal, Malad High School

Foster Garrett is the Employee of the Month (February) for Oneida School District.

Foster Garrett is living proof that Michael Corbett can make a great decision. Finding Mr. Garrett and offering him a job has been a tremendous addition to our school district.

In his first year, Mr. Garrett's enthusiasm and commitment to music education and student learning is an a drastic rise. The number of participants in choruses and bands have increased dramatically. The performing arts are literally on the rise.

On a professional note, I enjoy working with Mr. Garrett. He personally and professionally wants to master his craft. He works well with others and is a complete pleasure to be around.

Thank you Foster!

Sincerely,

Robert Hannah, Principal
