Re: School on October 14

Dear Parents and Students,

On Wednesday, October 14, the High School has a testing day for all Seniors, Juniors, and Sophomores. These students must take these tests on this day. Please have your MHS students to school on October 14.

The Freshman class is not required to take any tests that day; however, they must complete an assignment. The Freshman will need to fill out their 4-year plan using the program School Links. They will be receiving their log-in information and are expected to complete this assignment before returning to school on October 15. School Links will help get them on a path for classes to help them obtain vocational certificates through SEITec and any Advanced Opportunities and Dual Credit College courses they may want to take.

This testing day has made it possible for all students at Malad Elementary and Malad Middle to have an “early out” day on October 14. The Elementary students will have lunch at their regular times and then load the buses at 1:00 pm. Middle School students will have lunch at their regular time. High School students will have lunch at 12:45. MMS and MHS students will then load the buses at 1:15 pm to go home.

Please plan for these early out times on Wednesday, October 14.

- Elementary: 1:00pm
- MMS & MHS: 1:15pm

Sincerely,

Elizabeth Kent
